

The National Gem, Mineral and Fossil Show 2022

Newsletter 1

Venue:

The Show is being hosted by the Canterbury Mineral and Lapidary Club on October 14, 15, and 16 at Riccarton Park, Upper Riccarton, Christchurch.

Setup

The setup will be from Thursday 13 October from 9 a.m. until 7.00 pm. Displays, sales tables and competitions may be set up from Thursday 13 October from 1 p.m.

Documents

These are attached to this newsletter, and are also available at [The National Gem and Mineral Show 2022 – Canterbury Mineral and Lapidary Club \(cmlclub.org.nz\)](http://The National Gem and Mineral Show 2022 – Canterbury Mineral and Lapidary Club (cmlclub.org.nz))

The National Competitions

These are open to all the National Association of Rock and Mineral Club's members through association from their own rock and mineral club.

The schedule and entry form for the competitions are attached to this newsletter and available for download from the website.

It is encouraged to courier entries to the competition's team if you cannot attend the show. Hetties Rock and Crystal Shop have kindly agreed to act as the delivery point for the couriered entries as the shop is open 7 days a week from 10 am to 5 pm.

There will be a prize draw for those entering the competition. The number of classes entered in the competition will determine how many entries you will get in the draw. I.E., 1 class entered, one chance in the draw; 6 classes entered, 6 chances in the draw. The prize will be an 80mm sphere of Zebra Stone from Kaikoura made and donated by me (Craig McGregor).

Val and John getting excited over the new show cases

Traders Application Document

This is attached to this newsletter, and from the website. It would be much appreciated if traders would create a display in one of our show cases, and consider donating a specimen for our show raffles. Please pay a deposit as shown on the application form with your request. It would be a good idea to get your application in early, as space is limited.

Looking forward to seeing you in Christchurch,

Craig McGregor (It is by no means a coincidence that this is the same person who is President of the National Association – lol) and the Show Committee Team.
